Principal News

It has been another action packed fortnight as we inch closer to the Term 3 holiday break. It has been lovely to be able to enjoy some rain as well as glorious sunshine. As the weather warms up, we remind students that they need to bring a water bottle to school each day. Drinking water throughout the day is extremely important to keep our bodies hydrated and our brains functioning as they should. The refrigerated water coolers have been switched back on as they now have water bottle filling spouts attached.

School Colour Run

The Fundraising Committee and PCC in conjunction with the SRC have decided on a Colour Run as our major fundraiser for 2021. We have set the date for the 5th November. More details will be

sent home soon regarding how students can begin to raise funds. The funds raised will be going towards the student initiated, SRC project — installation of in ground trampolines.

These are very expensive items of play equipment so we are looking for everyone to jump on board and raise as much money as we can.

Fathers Day Stall

A massive thank you to Nikki McCracken and Jess Holzberger for their organisation of the 2021

Fathers Day Stall. We would also like to thank Katie Urwin, Jenny Young and the BPS staff who helped students with their purchases. This year we had to limit items due to the difficulty in obtaining stock. We hope that this isn't the case in 2022 and we can return to our normal processes.

The Fathers Day Stall was a great example of how valuable our new Balaklava Primary School Volunteers Facebook page is when looking for volunteers. If you haven't requested to join, please do so as soon as you can.

2

Jolly Soles

Thank you for your fantastic support with our Jolly Soles Sock Fundraiser. Socks have now been ordered and we hope to receive them prior to the end of the term.

Student Free Days:

The Governing Council have approved two Student Free Days for Term 4. Both of these days will be staff Training and Development days where we will be undertaking data analysis, discussing our School Improvement Plan and making plans for 2022.

While it isn't always ideal to have two Student Free Days' in one term, we have tried to minimise the impact by setting these on the same day that BHS have their Student Free Days. This will mean that the School Buses will not be running on either day.

Did you know that we are allowed to book 4 Student Free Days for staff Training and Development and 1 School Closure for an event of local significance each year. Due to the Paskeville Field Days being in the holidays this year, our School Closure was given for the Adelaide Show. Despite the Show being cancelled we were still able to enjoy the closure. This is always appreciated by staff as we get the day off too. We haven't had a Student Free Day since Term 3, 2020. This has been mainly due to Covid lockdowns.

We really are looking forward to the two full days where all staff can be working and learning together. Thank you for your support of this extremely important work.

Save the dates

Student Free Days

Monday 25th October & Friday 19th November

Principal News Continued

Facilities

Over the holiday break we are expecting a number of facilities job to be undertaken.

-The shelter between Music Rm and the Ber building is not usable in wet weather due to the way the rain runs under the shelter, gathering in a rather large puddle outside of Ber 1. Over the break, work will be done to rectify this.

- Disability Unit: A number of facilities upgrades will be taking place in Rm 8. These will include (but not limited too—installation of a sliding door, preparation for the installation of an outdoor ramp within the black fenced area, painting, new sink, benchtops and under bench cupboards and a new kitchenette. Work on Rm 8 will continue into Term 4.

- Oval Conversion from Bore to Mains: I am sure you have noticed over the years how discoloured the sheds / shade structures and goal posts are on the Oval. This has been caused by continued watering with Bore Water. We are currently in the process of switching over to mains watering. Trenching for power and continued work on this project will be undertaken during the break.

- Trenching for Bus Road Boom Gates: We are in the process of organising Boom Gates to be installed at either end of the bus road. In order for this to happen, trenching for power needs to occur both at the Wallace and Gwy Tce ends of the road.

- Work is continuing to change the entire school over from a traditional key system to a digital key system. This upgrade is being financially supported by the Department for Education.

- Next week, Scott from Rusted Tin Aboriginal Contemporary Arts will be at BPS to paint our Rebound Wall. You may remember seeing in the newsletter a few weeks ago that Scott has worked with students in Rm 14B. It has been this work that has inspired his design. We can't wait to see the finished product.

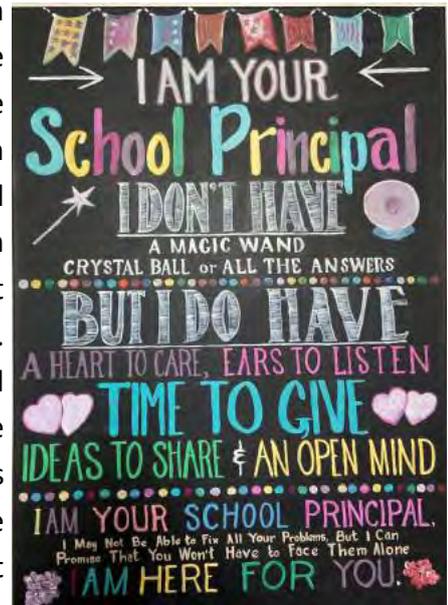

There has been no change to the COVID restrictions. Thank you so much for your ongoing support through keeping your children home when they are unwell (Minimum 24 hours from last symptom), remaining out of the school yard at drop off and pick up and only coming into the school if absolutely necessary. We also appreciate that when you come in, you are using the QR code and wearing a mask. Thank you.

While these ongoing restrictions and uncertainties throughout Australia could be stressful for students and families, at BPS, we have continued to focus on positivity, kindness and gratitude. A huge part of being able to brighten up our day and spread the positivity, has been the art work that continues to be undertaken around the site during the term.

The SRC are thrilled with the way that Holly from Long Legs Art is turning their ideas into reality in our toilet blocks and the students in Rm 14B now have an inspiring view when looking outside of their windows towards the ATCO thanks to Ming from Art of Owen.

Ming has also been able to produce a piece of art for me. I believe this displays an extremely powerful message and I am proud to have it hanging on my door. Thank you Ming and Holly for your positive contribution towards the wellbeing of the staff and students at BPS.

Dianna

SAPSASA ATHLETICS

On Tuesday 7th of September Miss Leonello took 60 children to Burra for SAPSASA athletics. Miss Leonello came to athletics to manage the team and events. During the day we did pretty well at the other events.

The first events were 100m. In the 100m lots of our school team came in 1st 2nd or 3rd meaning we had lots of people from our school that participated in the finals. One of the next events was 800m, Connor Willmer broke the SAPSASA record for 2010 boys 800m.

Other events people participated in were High Jump, Shot Put, Long Jump, Discus, 200m and relays.

Angus got 1st in High Jump.

Payton came 2nd in High Jump and 2nd in 100m.

Rubi came 1st in 100m and Long Jump.

Over all we had over 15 people from our school in the SAPSASA athletics team going to Adelaide to compete against the other that are more competitive. Overall Saint Jo's came 1st and we came 2nd place out of around 10 schools.

SAPSASA ATHLETICS

Congratulations to Connor who broke the 800m 11 year old boys record.

SAPSASA GOLF

On the Thursday of Week 8 I went to SAPSASA golf at West Beach. When I got there I practiced putting. I started on hole 8. Next I went to 9 then 10. On hole 11 I got three. When I got to hole 14 I went in a bunker. After I had finished I had to add up what I got. I got 89 and I came 72 but I missed out on getting to the next round. On Friday I went back and played again. This time I started on hole 1 and got 4 when I got to hole 10 I hit a ball in the water and got a penalty. So when I finished I got 77 and came 6th out of 40 people. On the second day I got 12 shots different.

NANCY'S NEWS

Hi Everyone,

I've been reading some articles on the Australian Parenting Website, www.raisingchildren.net.au. It has so much helpful information for parents and families – information on newborns, pre-toddlers, toddlers, school-age children, pre-teens, teens, grown-ups, and facts that help us to better understand autism and disability.

Their information is reliable, and up-to-date, put together by a team of professionals. It can help the reader feel less alone in their day-to-day challenges and also can inform significant others how they can better support their loved ones through those challenges.

It really is a website that has busy families in mind, too. Quick and easy to find specific information, full of tips and tricks for you to try, easy to read and easy to digest. Many parenting questions have been addressed and the different stages of life are catered for in the plethora of information.

Some examples of their tips – “Anxiety and how to deal with it: tips for parents”, “School age: Learning Ideas”, and “Pre-teens: Digital Life” - just to name a few of the subjects covered.

I encourage you to have a bit of a look for yourself. A free opportunity to gain some valuable knowledge that can assist you to better understand and support your family.

Have a happy and safe holiday break and we will see you on the other side of the holidays.

MUSIC NEWS

Festival Performance

What a night it was, "Stars in the Arena" celebrating 130 years of the Primary Schools Music Festival at the Adelaide Entertainment Centre.

On Friday night 13 of our students performed.

Our school was also represented by Hailey who was part of the orchestra troupe.

The Primary Schools Festival of Music is the custodian of an iconic South Australian tradition, we engage our students in artistic excellence, cultural diversity and social inclusion through performance in Music and the Arts.

The commissioned work was entitled "Water is Life" which was a series of songs composed by local musician Glyn Lehman. Glyn sang in the festival himself nearly 50 years ago.

The concert ended with a spectacular sea of colour.

During the concerts there were a number of Guest Artists from public primary and secondary schools, other choir items that presented different musical genre, and two pieces that specifically showcased the talents of the orchestra.

A spectacular event that our students enjoyed being part of.

We got there at 1pm and we ate some lunch when we were waiting to go in to practice before the concert. We got put into two groups and they were Altos and Sopranos, and we practiced all the songs for the concert. We had our tea and got dressed ready for the concert. After we got ready, we had to have photos taken. The concert started at 6:00pm and finished at 9:00pm I most enjoyed singing all the song at the concert at night-time.

Shalyla

Year 4/5 Woodhouse Camp

On Challenge Hill there were a lot of activities. One of the activities was Mouse Trap. One of the Mouse Traps was old and one was new. The new one was big and spacious. The old one was so dark and tiny. Another activity we did was rock climbing in water. It was really fun. I fell in once. My favourite activity was when we had to be monkey's and swing from one rope to the other rope. I slipped on the last rope. The water was freezing cold. This activity was when you had to walk across a wobbly log. Mrs Rix and Mr Palka tried it.

Alexa

I really enjoyed Challenge Hill because of all the hiking. I also liked it because of the creek crossing and the rock wall that starts in the water. Our group also went through the mousetraps. The mousetraps were round, wooden spheres that you had to go through like a maze. One of our other favourites was the one where you had to swing from the ropes and the lifesaving rings. It was hard!

Jacob

My favourite bit of camp was Challenge Hill. The water parts in Challenge Hill were really fun but the water was really cold. One of the obstacles was the rope swing where you had to swing from rope to rope without getting wet. Then in the next obstacle you had to swim to the rock wall and climb up. It was hard because the rock wall was slippery.

Lexie

I really liked Laser Skirmish because we got to use laser guns. We also played it in a scrub. There were two teams, team Alpha and team Bravo. Team Alpha won two games then came the Hunger games. We had thirty health points each in 2 games but 200 in the Hunger game because it was a big free for all. You could make alliance with your friends. There were two different modes on the gun, spray mate and sniper mode. In the free for all, I came 5th. Brock won and he was on team Alpha like me.

Curtis

In survivor we made fires and tee pee's. I enjoyed it. Our girl group got bragging rights. We had lots of fun. We thought we were only allowed three branches but we were allowed as many as we liked. We made the fires out of batteries, steel wool, flint and steel.

Annabella

Laser skirmish was fun because you could run around and hide in bushes while trying to take out other people. You have to hit the head or the gun. The guns had a red dot site.

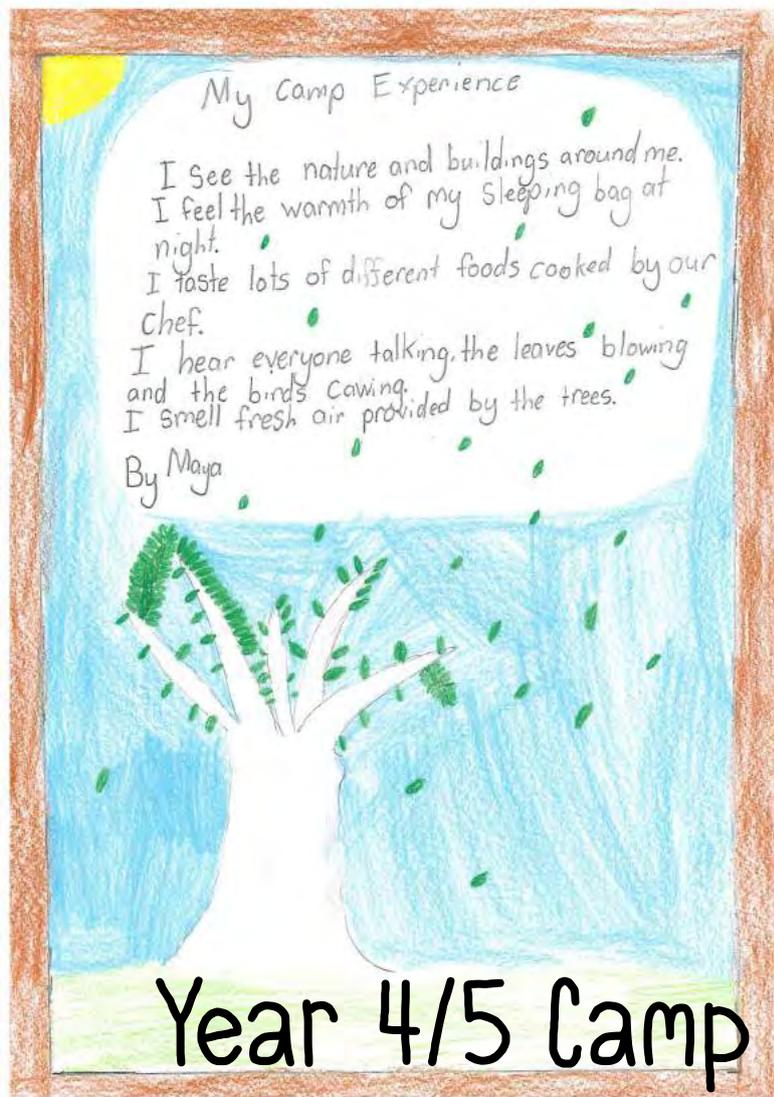

Ned

Laser Skirmish-There were two teams. Our team was team Bravo. You had to hide and shoot the other teams. You had to not fall in to the creek. Alpha won the team game against Bravo.

Tess

Year 4/5 Camp

9

The Year 4/5 teachers and students would like to thank Mr Palka, Mrs Cleary and Travis Zerk (parent) for accompanying us on our camp. We valued your presence and are grateful for the help we received.

My Camp Experience
I see the nature and buildings around me.
I feel the warmth of my sleeping bag at night.
I taste lots of different foods cooked by our chef.
I hear everyone talking, the leaves blowing and the birds cawing.
I smell fresh air provided by the trees.
By Maya

Year 4/5 Camp

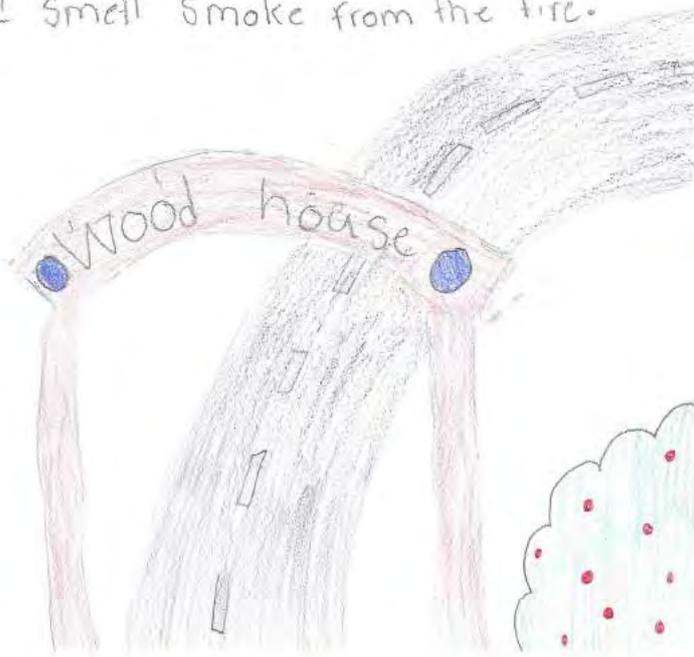

Camp!

By
Brianna
Young

I see lots of hills in the distance.
 I feel water on the tube slide.
 I taste fresh juicy fruit.
 I hear birds singing in the tree tops.
 I smell smoke from the fire.

Camp!

I saw,
 a wet marshy, man made, animal inhabited wetland.
 (Bug Busters)

I felt,
 Spraying water against my back as I move at a
 fast pace (Tube Slide)

I tasted,
 the red, juicy skin of a yummy, good smelling apple.

I heard,
 the 300 different bird calls going over the bridges.

I smell,
 the clean, fresh air whooshing past the great,
 big trees.

By Ruby Lemon

Challenge hill poem-camp

I see:

The big hill in front of me, the birds and the woola.
 I feel:

The leaves brushing on my arms and legs.
 I hear:

The birds chirping and the twigs crunching under our feet.
 I smell:

The Eucalyptus from the plants and trees.
 I taste:

The lasagne from the night before.

Woodhouse SA

Year 4/5 Camp

Clay workshop 14a & 14b

Over two days, Rm 14a and 14b worked with Ms Churchett to make clay creations. 14B made pinch pots and then used a stick to decorate the pot. Rm 14a were able to make anything they wanted to make.

Ms Churchett will now take them to be fired in a Kiln.

It was fun and felt really good to squish.
Emily

It looked very nice and will be good to put our plants in.
Morgan

Clay workshop 14a & 14b

It was fun. We have never done it before. We had to be really gentle as it breaks easy.

Penelope and Maddie

Rm 8

A few weeks ago, Rm 8 received some new furniture. The adjustable height tables make learning activities much easier.

The students and staff have thoroughly enjoyed the jungle theme this term.

Community Garden

Every Tuesday students from either Mrs Rowland or Ms Leonello's class visit the Community Garden to improve their gardening skills. It involves tending the school's garden plots, working the compost bays or preparing other plots for planting. This week 4 students from Mrs Rowland's class were busy replenishing the soil in one of the larger plots. Each session includes a treat at the end. This time the keen gardeners were allowed to pick peas and all left with a full zip lock bag.

Here we have Tahlia, Hudson, Hannah and Curtis hard at work under the supervision of Kevyna Gardner.

Book Fair

Friday afternoon is the final afternoon to shop at the 2021 Book Fair.

Thank you to everyone who has supported the school by purchasing items from the Book Fair.

Thank you to Cherie, Diane and Michele for your organization and to Kasey for moving out of Rm 1 to allow us to use the space this week.

ATCO ART

It brightens up our day when we look at it.

The ATCO looks really detailed and bright.

I never thought the ATCO could look so good

It inspires us.

Wow Ming, you work so fast.

The nature and butterflies look really bright and good.

GIRLS RED BRICK TOILETS

I like the rainbow because of the colours.

Chloe

The paintings look beautiful because the unicorn is rainbow.

Aria

They look nice because they have fairies.

Rose

The flowers are my favourite because they make our toilets look good.

Sage

I like the fairies because they look like they are really flying.

BPS learning Improvement Focus: Maths

Advice for Parents, from Professor Jo Boaler

Do you remember how excited your children were about maths* when they were young? How they were excited by patterns in nature? How they rearranged a set of objects and found, with delight, that they had the same number? Before children start school they often talk about maths with curiosity and wonder, but soon after they start school many children decide that maths is confusing and scary and they are not a "math person". This is because maths in many schools is all about procedures, memorization and deciding which children can and which cannot. Maths has become a performance subject and students of all ages are more likely to tell you that maths is all about answering questions correctly than tell you about the beauty of the subject or the way it piques their interest.

Given the performance and test-driven culture of our schools, with over-packed curriculum and stressed out students, what can parents do to transform maths for their children? Here are some steps to take:

- 1** Encourage children to play maths puzzles and games. Award winning mathematician, Sarah Flannery reported that her maths achievement and enthusiasm came not from school but from the puzzles she was given to solve at home. Puzzles and games – anything with a dice really – will help kids enjoy maths, and develop number sense, which is critically important.
- 2** Always be encouraging and never tell kids they are wrong when they are working on maths problems. Instead find the logic in their thinking – there is always some logic to what they say. For example if your child multiplies 3 by 4 and gets 7, say – Oh I see what you are thinking, you are using what you know about addition to add 3 and 4, when we multiply we have 4 groups of 3...
- 3** Never associate maths with speed. It is not important to work quickly, and we now know that forcing kids to work quickly on maths is the best way to start maths anxiety for children, especially girls. Don't use flashcards or other speed drills. Instead use visual activities such as <https://bhi61nm2cr3mkdgtk1dtaov18-wpengine.netdna-ssl.com/wp-content/uploads/2015/03/FluencyWithoutFear-2015.pdf>
- 4** Never share with your children the idea that you were bad at maths at school or you dislike it – especially if you are a mother. Researchers found that as soon as mothers shared that idea with their daughters, their daughter's achievement went down.
- 5** Encourage number sense. What separates high and low achievers is number sense – having an idea of the size of numbers and being able to separate and combine numbers flexibly. For example, when working out $29 + 56$, if you take one from the 56 and make it $30 + 55$, it is much easier to work out. The flexibility to work with numbers in this way is what is called number sense and it is very important.
- 6** Perhaps most important of all – encourage a "growth mindset" let students know that they have unlimited maths potential and that being good at maths is all about working hard. When children have a growth mindset, they do well with challenges and do better in school overall. When children have a fixed mindset and they encounter difficult work, they often conclude that they are not "a math person". One way in which parents encourage a fixed mindset is by telling their children they are "smart" when they do something well. That seems like a nice thing to do, but it sets children up for difficulties later, as when kids fail at something they will inevitably conclude that they aren't smart after all. Instead use growth praise such as "it is great that you have learned that", "I really like your thinking about that". When they tell you something is hard for them, or they have made a mistake, tell them: "That's wonderful, your brain is growing!"

* I use maths, rather than math, partly because I am from the UK and we say maths there and partly because maths is short for mathematics, it is a plural noun. Mathematics was chosen to be plural to reflect all the many parts of mathematics - drawing, modeling, asking questions, communicating, etc. Math sounds more singular and narrow (Do the math, usually means do a calculation!), and I prefer to keep the idea that maths is a multidimensional and varied set of mathematical forms and ideas.

SeeSaw Tip

In Seesaw you might receive messages from Admin, Class Teachers and Specialist Teachers. It can become confusing as to whom you are talking to - especially if you have more than one child.

Did you know that each conversation is labelled? You can see who is messaging you and what class they are messaging from. Each new conversation starts with:

1. the teacher
2. the seesaw classroom they are being contacted from
3. the student they are referring to.

In the picture example, we have four imaginary children - Tiny, Mini, Zippy and Buz. Buz is not only in an upper classroom - but he has also joined a lunch time arts group.

All Specialist arts lessons are run by Mrs B and so they are all in the class marked 'Performance Groups'. Any updates about Choir, Dance, Instrumental, Rock or Vocal lunch groups come through the 'Performance Group' conversation.

You might notice something strange here though - Mini and Zippy are grouped in the same class! This is because Mini and Zippy are twins. This will be the only time a teacher might need to specifically identify a student in a message.

This top tip was brought to you by, Mrs B
